Trolley

Plastic and metal USB flash drive with round body and red LED that lights up during use. The connector is situated on the outer edge of the plastic body and when not in use, it can be housed inside the metal cap. To extract it, simply swivel the body by holding the central transparent plastic core between your thumb and index finger. This USB flash drive can be customised with logos and graphics using laser or silk-screen printing on the metal part, and with laser engraving inside the transparent plastic body.
