# Shift

Compact ultra-light USB flash drive with an elegant and striking design. Made of metal, with a rectangular shape and rounded outer corners. This model is fitted with a highly compact connector thanks to the latest-generation COB chip that is housed in the body when not in use, and slides out conveniently when the slider button on the side is pressed. There is a functional hole on one end for threading cords and accessories. The body can be customised on both sides with silk-screen printed or laser engraved logos and graphics.
