Slide Holder

The Slide Holder is a practical smartphone holder for use in the car. It works like a small extendable vice and therefore holds devices of any size. Inside it has anti-scratch silicone pads that guarantee a secure grip. The holder is in turn fixed to the air vents of the car thanks to the practical universal hook on the back, which is the same colour as the silicone pads. The Slide Holder can be customised with stamp printed logos.

Product code
GD009
