Pair Pod TWS

The Pair Pod ear buds are the most effective alternative to the original model of headphones with True Wireless Stereo technology and a case with magnetic induction charging base. The Bluetooth 4.2 version guarantees a coverage of 10 metres. The ear buds have 50 mAh batteries and a listening range of approximately 2 hours. To charge them, just put them back in their case, which is fitted with a 500mAh battery, which can in turn be charged via USB cable. Thanks to the built-in microphone, you can also make calls without needing any cables. The case can be customized on two sides with company logos in silk-screen and CMYK printing. Also available in the mini version, ie the same model but with reduced dimensions. The case of the Mini measures almost one centimeter less, both for base and height, compared to the standard model.

Product code
EP007

Materials
Plastic.

Delivery days
23

Front Customisation
Silk-screen Printing,
UV Printing.

Size
5,4 x 6,7 x 2,8 cm
