PopSockets

Customize the original PopSockets with your company logo or advertisement! PopSockets is a small adhesive support designed to improve the functionality of smartphones and tablets. Once attached to the back of the device, it becomes a practical rest for keeping the phone in a vertical position, or else as a convenient grip for typing, watching videos or taking photos while holding it in one hand. It can also act as a cable winder to keep small cables and headphones tidy. The distance between the adhesive base and the outer surface is adjustable: indeed, PopSockets can expand, contract or fold on one side according to its usage. The outer surface has a circular shape and is customizable with digital print. PopSockets provides an extra adhesive surface for mounting on smooth glass surfaces.

Product code
GD015

Materials
Plastic.

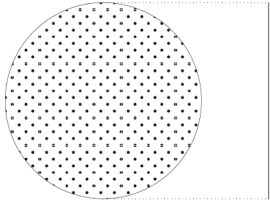

Delivery days
15

Front Customisation
CMYK printing.

Size
4,0 x 4,0 cm

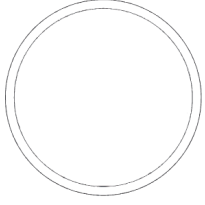

Packaging
Pack PopSockets.
