# Twist

Foldable headphones for smartphones, tablets, TV, stereo or any other device equipped with a 3.5 mm jack. The main feature of the headphones is how light they are and the fact that you can fold and rotate the headphones to make them more compact when storing. The headband is adjustable and is covered in soft silicone on the metal part. In addition to the ergonomics, these headphones also offer an aesthetic advantage: if you order a minimum of 100 pieces, you can choose a different colour for each headband, including the silicone covering. This product can be extremely original thanks to the colours you can play around with. Even the external part of the headphones can be customised with silk-screen and CMYK logos and graphics.

Product code  
HP006

Materials  
Plastic.

Delivery days  
15

Size  
18,0 x 13,0 cm
