# Widget OTG

Aluminium USB stick with On-The-Go (OTG) technology equipped with a micro-connector and lightning to connect it directly to smartphones tablets and cameras to read and transfer data quickly and immediately. Thanks to a rotating mechanism, the central part of the key can be oriented to always show one end or the other. On one side, there is the Type C connector; on the other side, the standard USB connector which when opened also releases the micro connectors for Android and lightning for iOS. To use this USB flash drive on the iPhone, you need to download the CooDisk application from the Apple Store and follow a few simple instructions. For all other smartphone models the pen drive works automatically. The aluminium frame is customisable with the company logo thanks to laser incision.

Product code  
usb\_0014

Materials  
Metal.

Delivery days  
10
