Caddy Priority

Cardholder with RFID lock that ensures electronic card data theft and completely isolates the cards from any magnetic sources. Shipped in only 24 hours in neutral version and 48 hours in customized version, thanks to the fast delivery service*.

The satin-finish aluminium shell, available in silver colour, also protects cards from physical impacts and damage. It contains up to 5 cards, and a small lever/latch mechanism quickly releases them from the holder, displaying them in a way which is easy to recognise and extract them. This light and compact cardholder is a suitable business gift, perfect for all budgets. It is customisable with the company logo on both sides thanks to laser engraving, a technology which can design a logo which is almost indelible and ensure a long-lasting result.

**The products ready for delivery are shipped from our premises within 24/48 hours from the order confirmation. Delivery takes place in 24 or 72 hours depending on the destination area and the type of product. Power Bank, speakers and all battery-powered products may have longer delivery times because they do not allow shipping by air. We invite you to check the expected date for the delivery of your order in the estimate.*

Product code
GD916

Materials
