Swipe

Microfibre cloth with an adhesive base to stick to the back of your smartphone when you need to free your screen of dust and fingerprints. The square anti-scratch cloth can be used multiple times because the sticker has been designed to be stuck on and taken off repeatedly without losing its adhesiveness. Both the surface of the cloth and the packaging can be customised with UV logos and prints; the product is fixed to a rectangular-shaped cardboard and is customisable in CMYR printing.

Product code
GD023
