Manta HD 20000

FreePower Manta HD 20000 is Cellularline's powerful, ultra-small portable charger: it's up to 40% smaller than standard portable chargers but it offers the same power thanks to the innovative technology of the high-density lithium polymer cells. With its 20000 mAh capacity, it can provide up to 15 charges in a row. Equipped with USB and USB-C ports, FreePower Manta HD 20000 is also a technological marvel that guarantees high charging performance, even with the most advanced smartphones. It's equipped with the following charging technologies:- Power Delivery USB-C 18W for fast charging of the iPhone 8 and later models, the iPad Pro 11" and the iPad Pro 12.9";- Qualcomm® Quick Charge™ 3.0, 9V2A Fast Charging and Adaptive Technology for fast charging of Samsung, Huawei and other brand smartphones. Thanks to the Smartphone Detect system, it recognises the connected device and activates the most suitable charging technology, supplying up to 18W of power. With FreePower Manta HD 20000, you can also head out and about with just one cable because the USB-C and Micro-USB charging ports make it compatible with cables from most smartphones on the market: it's perfect for charging your devices on the go!

Product code
PBC10
