# Disk

5W wireless charger in concrete and cork for charging smartphones with Qi technology compatible with wireless charging. This round base charger is ultra-flat and the surface is grey, as is the cable used to connect it to a power source. Concrete material makes it original while the white gives it an elegant appearance. The cork base ensures a non-slip and scratch-resistant support. The surface can be customised with the company logo in digital printing. Another strong point is the delivery time: it is shipped from our premises within 24/48 hours from order confirmation, and delivery takes place in 24 or 72 hours depending on the destination.

Product code  
WC904

Materials  
Concrete.

Delivery days  
2

Front Customisation  
Digital Printing.

Size  
Ø 9,1 × 1,5 cm

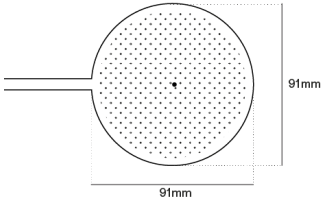

Packaging  
Havana Box,  
Personalizable  
Havana Box.
