Block

3 Watt Bluetooth speaker in round base bamboo with multicolour LED light on the entire perimeter of the body. The 300 mAh lithium battery guarantees an autonomy of 2 hours of listening and telephone conversation: the speaker has an integrated microphone to receive and make calls. Bluetooth 5 has a coverage of 10 metres. This case has an elegant design both for the essential lines and for the use of bamboo, which represents a valid eco-sustainable alternative to plastic products. The shell can be customised with the company logo in pad printing and laser engraving. Another strong point is the delivery time: it is shipped from our premises within 24/48 hours from order confirmation, and delivery takes place in 24 or 72 hours depending on the destination.

Product code
SP905

Materials
Plastic + Bamboo.

Delivery days
2
