# Plate

Wireless charger with shell in wheat fibre, compatible with all devices designed for wireless charging. Wheat fibre is an eco-sustainable material that results from the assembly of natural fibre and ABS, and which represents a valid alternative to plastic products that have a greater environmental impact. In the body there is an integrated LED that lights up during use and illuminates the edge of the shell. The supplied cable has a micro USB output to be connected to the charger on one side, and a double USB output and jack on the other to connect it to a power source. It uses standard Qi and functions via magnetic induction, with an energy emission equal to 5W. The surface can be customised with the company logo in digital printing. Another strong point is the delivery time: it is shipped from our premises within 24/48 hours from order confirmation, and delivery takes place in 24 or 72 hours depending on the destination.

Product code  
WC905

Materials  
Wheat.

Delivery days  
2

Front Customisation  
Digital Printing.

Size  
Ø 10,0 x 1,3 cm

Packaging  
Havana Box,  
Personalizable  
Havana Box.

Print Area  
Ø 8,0 cm

Certification  
CE RoHS

Input:  
(IT) DV5V-2A

Output:  
(IT) 5W
