# Hoco

Double-walled stainless steel thermal bottle with a capacity of 500 ml. Stainless steel is the most suitable material for water bottles as it is resistant to oxidation and corrosion, and therefore doesn't release any substance or contaminate the contents. Furthermore, due to its low conductive capacity, it can be considered a genuine thermal insulator. This feature is enhanced by the body of this bottle: a double layer separated by an air chamber, able to keep the contents hot for up to 12 hours, and cold for up to 24 hours. Hoco is available in the natural gray color of steel, bright gray, and can be customised with pad printing up to 3 colours and laser engraving. Another strong point is the delivery time: it is shipped from our premises within 24/48 hours from order confirmation, and delivery takes place in 24 or 72 hours depending on the destination.

Product code  
GD027

Materials  
Stainless steel.

Delivery days  
2

Front Customisation  
Silk-screen Printing 1 color, Silk-screen Printing 2 colors, Laser engraving.

Size  
22,0 x 7,4 cm

Back Customisation  
Silk-screen Printing 1 color, Silk-screen Printing 2 colors, Laser engraving.

Right Customisation  
Silk-screen Printing 1 color, Silk-screen Printing 2 colors, Laser Engraving.

Left Customisation  
Silk-screen Printing 1 color, Silk-screen Printing 2 colors, Laser engraving.

Packaging  
Original packaging, Personalizable original packaging.
