Urban

500 ml BPA-free aluminium bottle, therefore free of potentially harmful substances and suitable for food use. Aluminium makes it light and therefore practical to carry around, perfect for always having a supply of water at hand. However, it is not suitable for containing other drinks. On the lid there is a silicone strap to attach it to the backpack or bike. It is available in black and can be customised with the company logo in silk printing up to a maximum of two colours and by laser engraving. Another strong point is the delivery time: it is shipped from our premises within 24/48 hours from order confirmation, and delivery takes place in 24 or 72 hours depending on the destination.
