Color Card ECO

Ultra slim smooth USB flash drive in recycled plastic. Given its shape of a credit card only 2 mm thick, it is extremely practical to carry around. It is the product that has the largest print area, and is perfectly suited for graphic customisation. It is made of recycled plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use. It can be customised on both sides with silk-screen, CMYK printing and 3D printing. Recycled plastic can change colour depending on the mix used. This should not be considered a defect, but a unique characteristic of the product.

Product code
usb_4015

Materials
Recycled plastic.

Delivery days
12
