Cardboard Priority

In this USB stick the memory chip is inserted in a corrugated cardboard with a thickness of just over half a centimetre. The material is the same as that usually used for packaging and consists of several surfaces of flat paper alternating with corrugated paper, linked together by natural adhesives. The result is a product that preserves the functionality of the USB memory intact but with a minimum environmental impact for the production of the body. It can be customised on both sides by screen printing and four-colour process. Another advantage is the delivery turnaround: we can send the product within 24/48 hours of the order confirmation, so delivery will take place within 24 to 72 hours depending on the delivery destination.

Product code
usb_9419

Materials
Carton.

Delivery days
2

Front Customisation
Digital Printing.

Size
6,1 × 2,8 × 0,8 cm

Back Customisation
Digital Printing.

Packaging
Polybag, Havana box.

Print Area
3,2 × 2,0 cm
