Fresh

Fresh is a digital, self-sanitising water bottle. Equipped with an internal sterilisation system that uses UV light to eliminate most viruses and bacteria. The cap has a touch-sensitive sensor and LED display; just tap twice to start sterilisation. Fresh is suitable for holding any kind of liquid: it is not affected by natural or artificial colourings, and chemical agents will not affect its food-safe, 304 stainless steel interior. It features a 220 mAh battery that can be recharged via a USB Type-C cable. The interior is made of stainless steel and has a capacity of 750 ml. It is available in white and has a silicone strap for easy carrying. It can be customised with laser-engraved logos.
