# Flow

USB flash drive in rubberised look plastic, rectangular shaped with an asymmetrical side with a diagonal profile. This model stands out from more classic USB flash drives for its retractable body which allows the chip to be housed inside and to come out for use without the need for a cap. The body is available in many colour combinations with dual contrasting colours. The USB Flow flash drive can be customised on both sides with silk-screen printed logos and graphics. This model is designed and produced exclusively by Maikii.
