Skim

Ultra-slim USB flash drive in rubberised look plastic, rectangular shaped and compact size. The distinguishing features of this model are its retractable mechanism, which allows the chip to be housed in the body without the need for a cap, along with latest-generation Chip on Board technology which allows the components to be assembled in as little space as possible. The body is available in many contrasting colour combinations. The USB Skim flash drive can be customised with silk-screen printed or CMYK printed logos and graphics. This model is designed and produced exclusively by Maikii.
